SUMMARY

Webmaster with 7+ years of experience in web content and CMS work. Since March 2021, I have worked remotely for a web design and development studio, maintaining client websites through WordPress, in-house CMS platforms and the admin panels of PHP-based websites. I also access site files via FTP to edit HTML and CSS directly, prepare web visuals, build email newsletters and resolve client requests through a helpdesk. Open to full-time remote roles and freelance work.

EXPERIENCE

Mar 2021 – Present

Webmaster

Mocha Creative Web Design & Development Studio, Remote

- Manage content and page updates for multiple client websites using WordPress, in-house CMS platforms and the admin panels of PHP-based websites
- Access website files via FTP and edit HTML and CSS directly for page and content changes
- Prepare and edit visuals for web pages in Adobe Photoshop
- Update image alt text and meta titles and descriptions
- Prepare and send email newsletters using email editors and HTML templates
- Respond to and resolve client requests through the helpdesk

Apr 2026 – Present

Freelance Webmaster / Website Manager

nazliaypak.com, Remote

- Manage a personal brand website for online courses, consultations and events using WordPress, WooCommerce and WPBakery
- Publish and schedule blog posts, including Rank Math SEO settings and featured images
- Add and update WooCommerce products such as courses, video packages and consultations, including bulk revisions
- Add and update products on the Shopier store; maintain Shopier links and related sections on the website
- Create and manage event pages; prepare and update key pages such as the homepage, FAQ and About page
- Prepare slider, announcement, blog and product visuals using Adobe Photoshop
- Customize site design through theme settings and CSS, including brand colors, header/footer layout, typography and visual components
- Prepare and send email newsletters

Jan 2019 – Feb 2021
